

In This Article I'm going to show you how to configure Display suite module for node article.

1. First add some pages in article content type.
2. Then, Go to your home page from your admin site. You can see that we have articles with title, image and body text.

Now go to structure > Display Suite.

3. Click on **Manage display** for article content type.

 There are security updates available for one or more of your modules or themes. To ensure the security of your server, you should update immediately! See the [available updates](#) page for more information and to install your missing updates.

CONTENT	OPERATIONS
Article	Manage display
Basic page	Manage display
TAXONOMY TERM	OPERATIONS
Tags	Manage display
Article category	Manage display
USER	OPERATIONS
User	Manage display
COMMENT	OPERATIONS
Article comment	Manage display
Basic page comment	Manage display

4. Now you can see that there is Image, body and category field.
5. Click on **select layout for article in default**.

There is many predefined layout available in dropdown list. You can override it from template file.

But most of are already interesting enough to you to use default.

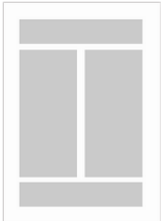

[Show row weights](#)

FIELD	LABEL	FORMAT
+ Image	<Hidden> ▼	Image ▼ Image style: Large (480x480) ⚙
+ Body	<Hidden> ▼	Default ▼
+ Category	Above ▼	Link ▼
Hidden		
+ Tags	Above ▼	<Hidden> ▼

Layout for article in default

[Custom display settings](#)

Current layout (after save)

Two column stacked

The default template can be found in `sites/all/modules/ds/layouts/ds_2col_stacked`

- ds-2col-stacked--node.tpl.php
- ds-2col-stacked--node-article.tpl.php

6. So, select **two columns stacked layout**. And save them.

7. Now you can see the changes in screen there is a layout created for you. Left, right, footer and also disable field are there you can choose them by dragging them under three regions (left, right, footer).

Header			
+ Image	Header ▼	<Hidden> ▼	Image ▼ Image style: Large (480x480)
+ Body	Header ▼	<Hidden> ▼	Default ▼
+ Category	Header ▼	Above ▼	Link ▼
Left	No fields are displayed in this region		
Right	No fields are displayed in this region		
Footer	No fields are displayed in this region		
Disabled			
+ Post date	Disabled ▼	<Hidden> ▼	Long ▼
+ Last modified	Disabled ▼	<Hidden> ▼	Long ▼
+ Submitted by	Disabled ▼	<Hidden> ▼	Time ago ▼
+ User picture	Disabled ▼	<Hidden> ▼	Thumbnail ▼
+ Author	Disabled ▼	<Hidden> ▼	Author ▼
+ Read more	Disabled ▼	<Hidden> ▼	Default ▼
+ Title	Disabled ▼	<Hidden> ▼	Default ▼

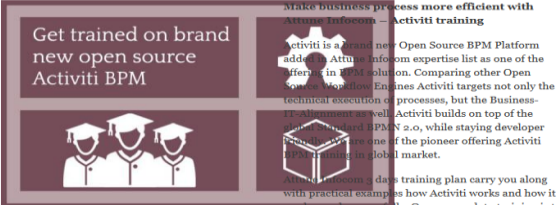

8. So I put **author** and **post date** field under header title, image under left, **body** under right, **comments** under footer.

FIELD	REGION	LABEL	FORMAT
Header			
✚ Author	Header ▼	<Hidden> ▼	Author ▼
✚ Post date	Header ▼	<Hidden> ▼	Long ▼
Left			
✚ Image	Left ▼	<Hidden> ▼	Image ▼
Right			
✚ Body	Right ▼	<Hidden> ▼	Default ▼
Footer			
✚ Comments	Footer ▼	<Hidden> ▼	Default ▼
Disabled			
✚ Category	Disabled ▼	Above ▼	Link ▼
✚ Last modified	Disabled ▼	<Hidden> ▼	Long ▼
✚ Submitted by	Disabled ▼	<Hidden> ▼	Time ago ▼
✚ User picture	Disabled ▼	<Hidden> ▼	Thumbnail ▼
✚ Read more	Disabled ▼	<Hidden> ▼	Default ▼

9. Next just save it.
10. Now go to home page open any article page.
11. You can see that layout of page is same as we configure using display suite.

Get trained on brand new open source Activiti BPM

admin
Monday, December 8, 2014 - 15:37

Make business process more efficient with Attune Infocom - Activiti training

Activiti is a brand new Open Source BPM Platform added to Attune Infocom expertise list as one of the offerings in BPM solution. Comparing other Open Source Workflow Engines Activiti targets not only the technical execution of processes, but the Business-IT alignment as well. Activiti builds on top of the Apache Activiti BPMN 2.0, while staying developer friendly as one of the pioneer offering Activiti BPM in the global market.

Attune Infocom's three days training plan carry you along with practical examples how Activiti works and how it can be successfully implemented. Our approach to training is to get equal weightage on theory as well practice using Activiti with a lot of practical exercises throughout the training. A participant will benefit from our profound experience with BPM and Process Engines. After the training we enabled candidate to assess the potentials and boundaries of Activiti, including the brand new BPMN 2.0. After the training, one can be ready to start working with Activiti. Our training methodology will help to gain an understanding of how business IT alignment works with Activiti.

In our three-day training we offer in depth knowledge on open source BPM Platform Activiti and enable organizations to successfully implement projects. Activiti can be used as a lightweight workflow engine, as BPM Suite or as the core of company wide SOA.

Attune Infocom other service offerings using Activiti BPM

Beside our Activiti training offerings we can help organizations to avail expert consulting and development support on BPM project using BPMN and Activiti:

- Workshop and Coaching
- Project Support
- Enabling and Support

Objective for Activiti BPM Training

This three days training is useful to Technical Architect, Senior Developer, Project Manager and System Integrator. This training is focusing on Open source ActivitiBPM, BPMN 2.0 standards and Activiti integration with Mule ESB and jBoss Drool. This course covers details on how to install, configure, create and deploy BPMN 2.0 Business processes using Activiti. After this training you will be familiar with BMPM 2.0 business processes, services orchestration, process deployment, execution, testing and monitoring using Activiti.

- Day 1: BPMN 2.0 & Activiti
- Day 2: Activiti Process Engine
- Day 3: Advanced BPMN 2.0 and Extensions

12. Image is not display properly so we change image size to small from display configuration shown in below picture.

FIELD	REGION	LABEL	FORMAT
Header			
+ Author	Header ▼	<Hidden> ▼	Author ▼
+ Post date	Header ▼	<Hidden> ▼	Long ▼
Left			
+ Image	Left ▼	<Hidden> ▼	Image ▼ Image style: Large (480x480)
Right			
+ Body	Right ▼	<Hidden> ▼	Default ▼
Footer			
+ Comments	Footer ▼	<Hidden> ▼	Default ▼
Disabled			
+ Last modified	Disabled ▼	<Hidden> ▼	Long ▼
+ Submitted by	Disabled ▼	<Hidden> ▼	Time ago ▼
+ User picture	Disabled ▼	<Hidden> ▼	Thumbnail ▼
+ Read more	Disabled ▼	<Hidden> ▼	Default ▼

13. Set image size to medium.

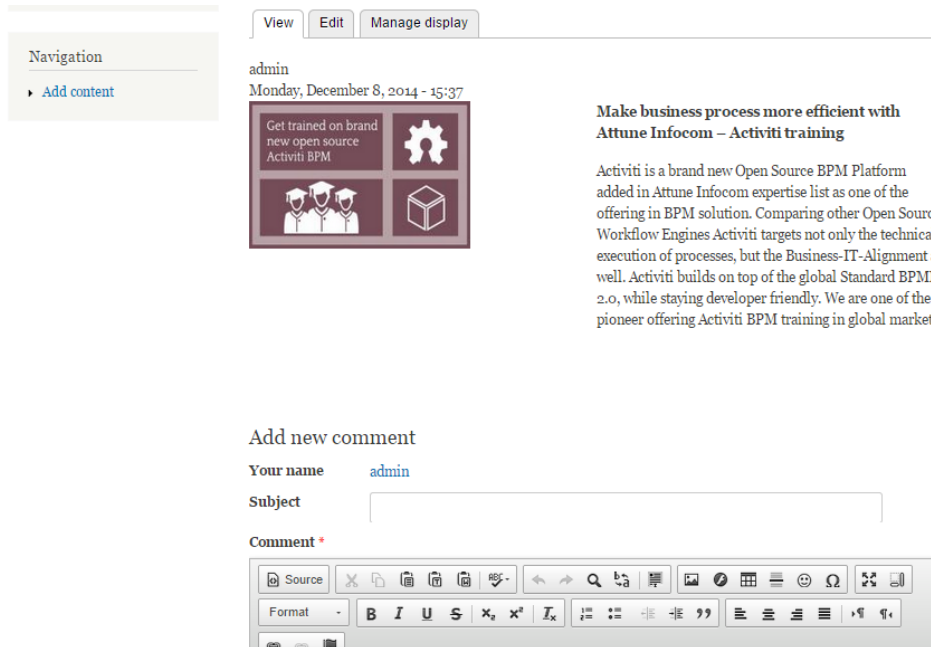

Here, you can define which fields are shown and hidden when *Article* content is displayed in each view mode, and define how the fields are displayed in each view mode.

FIELD	REGION	LABEL	FORMAT
Header			
+ Author	Header ▼	<Hidden> ▼	Author ▼
+ Post date	Header ▼	<Hidden> ▼	Long ▼
Left			
+ Image	Left ▼	<Hidden> ▼	<div> <div>Format settings: Image</div> <div> Image style Medium (220x220) ▼ </div> <div> Link image to Nothing ▼ </div> <div> Update Cancel </div> </div>
Right			
+ Body	Right ▼	<Hidden> ▼	Default ▼
Footer			
+ Comments	Footer ▼	<Hidden> ▼	Default ▼
Disabled			
+ Last modified	Disabled ▼	<Hidden> ▼	Long ▼

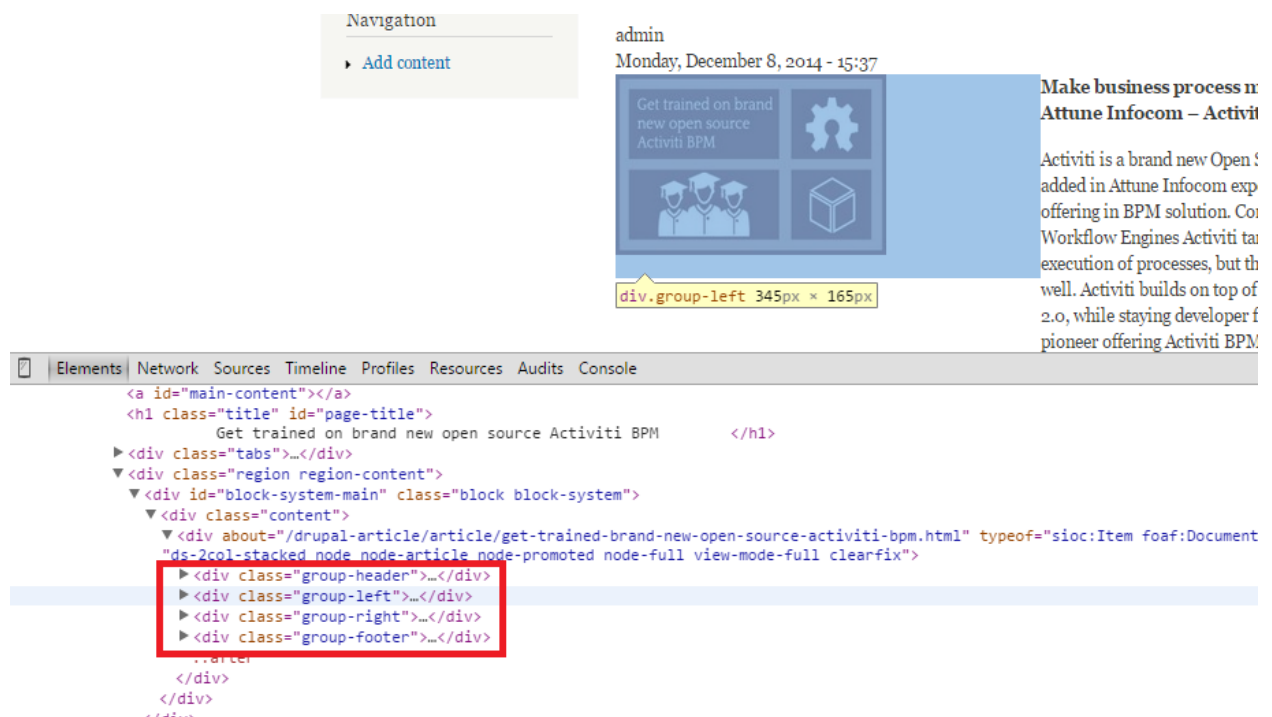

14. Save the settings by click on update button.

15. Save the configuration.

16. You can see that image is displaying properly.

17. You can see that Four region by inspect element.

18. You can give extra class to style your display layout.

19. Go to structure > display suite select **manage display** for article

- Scroll down the page and select Custom classes
- Click on **Manage region and field CSS classes**.

Disabled			
⊕ Last modified	Disabled ▼	<Hidden> ▼	Long ▼
⊕ Submitted by	Disabled ▼	<Hidden> ▼	Time ago ▼
⊕ User picture	Disabled ▼	<Hidden> ▼	Thumbnail ▼
⊕ Read more	Disabled ▼	<Hidden> ▼	Default ▼
⊕ Links	Disabled ▼	<Hidden> ▼	Default ▼
⊕ Title	Disabled ▼	<Hidden> ▼	Default ▼
⊕ Category	Disabled ▼	Above ▼	Link ▼
⊕ Tags	Disabled ▼	Above ▼	Link ▼ #

Layout for article in default
Custom display settings
Custom wrappers
Custom classes
Custom fields

You have not defined any CSS classes which can be used on regions.
[Manage region and field CSS classes](#)

Save

20. Now add some classes.

CSS classes for regions

class-1|class number one
class-2|class number two

Configure CSS classes which you can add to regions on the "manage display" screens. Add multiple CSS classes line by line. If you want to have a friendly name, separate class and friendly name by |, but this is not required. eg:
class_name_1
class_name_2|Friendly name
class_name_3

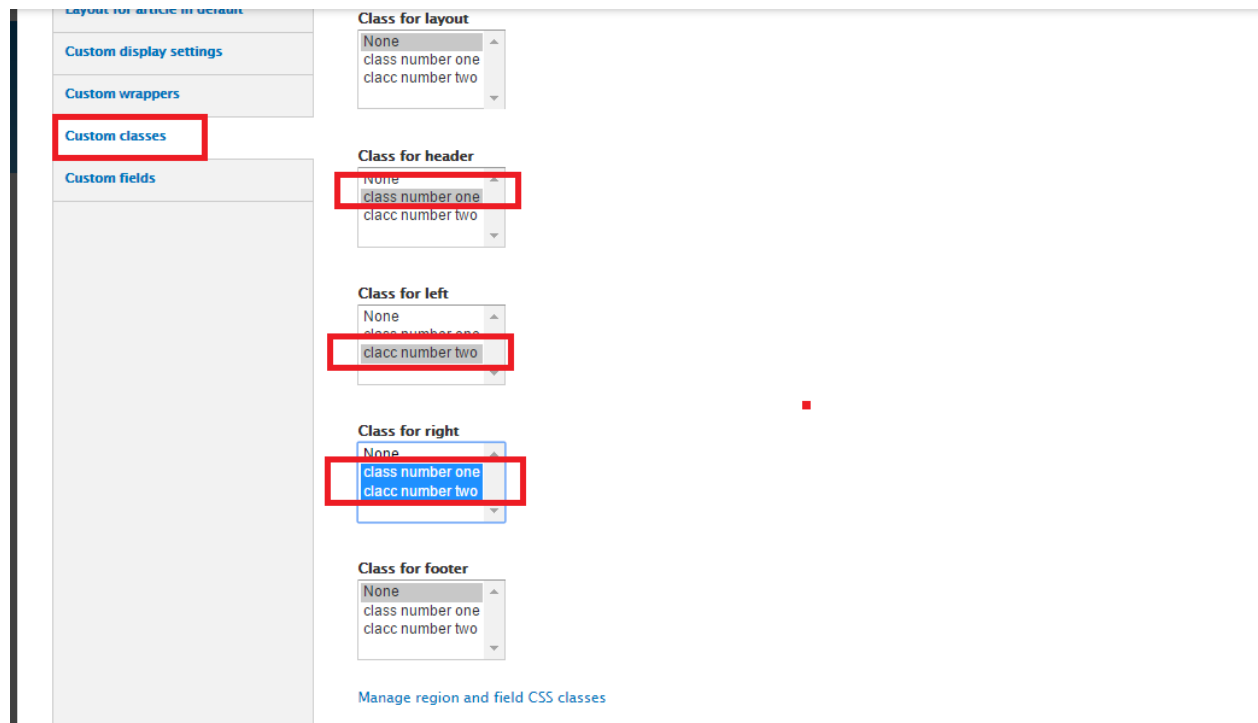

CSS classes for fields

Configure CSS classes which you can add to fields on the "manage display" screens. Add multiple CSS classes line by line. If you want to have a friendly name, separate class and friendly name by |, but this is not required. eg:
class_name_1
class_name_2|Friendly name
class_name_3

Save configuration

21. Save the configuration.

22. Go to **Custom classes** and select class for region.

23. Save Configuration.

24. Now go to Article page and refresh page and inspect element you can see recently added classes.

25. You can also disable the any field displayed in the page

For example we disable post date field and also author field.

- Go to manage display
- Click on dropdown box of field you want to hide ore disable.

- c) Select option disable or hidden.
- d) Save the settings.

FIELD	REGION	LABEL	FORMAT
Header			
⊕ Author	Header ▼	<Hidden> ▼	Author ▼
⊕ Post date	Header ▼	<Hidden> ▼	Long ▼
Left			
⊕ Image	Header Left Right Footer Hidden Disabled	<Hidden> ▼	Image ▼
Right			
⊕ Body	Right ▼	<Hidden> ▼	Default ▼
Footer			
⊕ Comments	Footer ▼	<Hidden> ▼	Default ▼
Hidden			
<i>No fields are displayed in this region</i>			
Disabled			
⊕ Last modified	Disabled ▼	<Hidden> ▼	Long ▼
⊕ Submitted by	Disabled ▼	<Hidden> ▼	Time ago ▼
⊕ User picture	Disabled ▼	<Hidden> ▼	Thumbnail ▼
⊕ Read more	Disabled ▼	<Hidden> ▼	Default ▼

26. Go to your article page refresh the page and check there are two field post date and author are disabled.

27. You can manage all the field of your page.

28. You can manage multiple content also.

For this lets upload multiple image in article page and display only one for article content type first you need to set image upload to multiple for image field from content type > manage display .

- a. Upload multiple images in any page and see all images are displaying in the page.
